“ *I worked for Barb at the Clinical Center years ago, and she was one of the best supervisors I ever had. She was always kind and thoughtful to her employees and those around her. She loved Bert, her daughters and their families so much as was apparent whenever she spoke of them. You all have my deepest sympathy.*

“ *Sending you all our strength and comfort today as you say farewell to your mom. We wish we could be there to hug and support you at this most difficult and sad time. Please know we are with you in thoughts and prayers... which doesn't seem like enough, but will have to do until we can all come together to celebrate her life and the incredible legacy she has left behind.*
