“ *I am deeply saddened to learn of Dan Verga's early passing. My condolences go to the family. I was his secretary for five years when he was the Northwest Regional Manager for Sears Catalog in the late 80's and early 90's before Sears closed their catalog stores. He was a wonderful boss to work for. When I asked for a raise, I got it. When I asked to go from part time to full time, he made it happen. He was such an upbeat person and in the morning, I knew he was coming up the stairs because he would always be whistling. I am thankful for having known him and having worked for him. Sharon R.*
