“ Tammy and Family-

*Please accept Tammy, Brad, Ryan and my most sincere condolences at this most trying time for you and your family. Tammy, I know that it has been very hard for you over the last several weeks, but I also know that he will always be with you. He would be most proud to know how you handled all of this with incredible grace and at work with incredible professionalism. I believe that one of the reasons you are so much my friend and my most trusted colleague is in part because of your dad. I had not seen his picture until now, what a good man he must have been. You can see his sincerity, good humor and trust in his smile and in his eyes.*

*As time passes, you will find his memory in places not expected, it may be the smell of someone's cologne that was his favorite, sounds that remind you of a special time together, a day that was special to you all. It will be these times when you can be closest to his memory and know how much he loved you and you him. While it does not seem like it now, time will heal the pain and you will be able to think of him and feel comfort in his memory and the memories you shared.*

*Please know that while we cannot be there physically, we will be there through our thoughts and prayers.*

*With our sincerest sympathy,  
The Grabski Family*

*If this comes up twice, my apologies, I lost the session on the first attempt.*
