“ *Doris was so helpful as a Cobden Librarian she was able to find where in the computer system my Library card was in a glych and correct the problem. This took some time, however Doris was not going to give up until she solved the problem.
Doris discovered her passion for making stuffed animals for children later in life and never charged a penny for these that she found a wider and wider circle of children organizations to which to donate them too. I am sure she made many little kids very happy and secure to have their very own cuddly toy to hold.
Doris never had an unkind word for anyone and will be truly missed by many.
