“ To Sharon, Lindsey and family, I knew Joe for more than 20 years as a coworker and at one point as his boss. He was the best of employees and a good friend. We worked together on a high stress project during which I admired Joe's calm approach to work that stressed out others. It's hard to believe he's gone. Too young, too soon. You have my heartfelt condolences. Joe will be missed. - Jim Gaul

“ To Sharon and Family  
As someone that only got to know Joe during the past few years I reach out to you with open arms, not knowing what to say. We became very close working together on park activities. His friendship and support to me and the community of Borden will forever be remembered. He was a true and generous servant to the community in general. Joe was like a brother to me these past years and I will cherish the time we had working together.  
May the Lord bless you and comfort you now, and in the time ahead. Please know that we loved Joe, and we love you, and we are here to help.

“ Knew Joe when he was known as Dean. We attended the same church and went to the same high school. He ran the quarter mile in high school and qualified for the State Finals. (This was before they had class divisions -all schools competed together regardless of size). Sorry to hear of his passing.

“ I meet Joe when he took over as the Senior Project Manager of a project I had been working on since the inception way back in Houston. This was a couple years later in Washington DC and he asked to meet me the day before he took over. I was like okay, let's see what this Joe will bring (our prior leader was also a Joe). He went straight to the point, no BS " just tell me, is this for real?" I asked do you want to know if you're going on boondoggle? I loved him right away, all business when it counted and the best friend to the end.

Just a few attributes that I always found so endearing was Joe was the ultimate gentlemen, in every way you could imagine. It could have been day # 55 in a row of 14 hour days and it was just an integral part of him to always be honorable and courteous.

The other was something I discovered by chance, after those long days working in DC, we'd all adjourn and walk "home" (hotel room)... Joe would stop and purchase a meal to give to one of the numerous homeless people encountered on the way.

We spent many years working together, spending more time at work than with our own family. He holds a deep place in my heart, forever.

Rest In Peace my friend, you were loved.
