Sending my condolences to his sister Becky Mifflin and the extended family and friends. He was always such a quiet, kind, caring person during the days of University Baptist Church with his parents with the music program there. Due to all being older I didn't know them personally but was blessed to have known them thru the years of us growing up. He was young still and full of life but what I hear lived a full compassionate life still and I know many are mourning this earthly loss. He is with Jesus in heaven now. With his parents. Hugs and prayers for all of those who have let this soul go sooner than expected. Keep his legacy alive in your hearts, souls, and minds and be rest assured another angel has hit the pearly gates of heaven's glory.

“ Many of us lost a good friend today with the passing of Mike “Fish” Mifflin. He was a unique individual. Fish and I shared a liking for a sixties group known as The Animals. I can remember fondly him coming up to me, and staring into my face in the way that Fish had a habit of doing, look at me for a moment, then break into the song “We Got to Get Out Of This Place.” Then he would smile that Fish smile.
May you rest in that place in peace, Old Friend. Your friend, Frankie Mole.

Ad it I s said it's not the blood of a man that makes him a father it's the love of the man that cared and raised you that earns the title of being called such I really didn't know fish only met him a couple of times but I know he was loved by many as well as a good friend to them as well my deep sympathy to you and your family
