“ *It was an honor to work with Norma for 19 years at Chester Hospital. As most of us who worked there during the late 70's, all of 80's, and early 90's, we grew up together watching each other's family grow up. She knew my family as if it they were her own. She was a mentor and a friend and I wish I had spent more time with her over the past 27 years. She will be missed.*

“ As so many before me I'm sure, Norma gave me my first job in the Health Information Management field. And, I continue my work in that capacity still today. She was a super boss, a super mentor and a fine example of the kind of professional I wanted to become. She had a work ethic like no other. But, what I think I remember the most is that she genuinely cared about her employees!!! No matter how busy she was, she always had time for you and your questions, your problems, etc. She was also that kind of boss that rolled up her sleeves and worked in the trenches with her employees. She loved her job and she hoped that you loved the job as much as she did. She gave 1000% to her job, her family, her friends, her employees, her peers, her superiors, etc. She was an exceptional human being and I know all that knew her will miss her very, very much!!!! We love you, Norma!!!
