“ *I vaguely remember, but when I was a little girl I got sick with a very high fever! My grandma contacted Phyllis Brown and she came over with her daughter Myndi, to help get my fever down by putting me into a freezing cold bath! Little did I know that I would become very close with Phyllis and her family over the course of time. She was loved by many and will not be forgotten.*

“ *Phyllis was already working at Southern Seven when I started there. That nursing job was different than any job I had ever had. Phyllis taught me so much while we worked together! I also worked with her on Century reunion committees and the Human Right Authority. Her expertise will be missed more than most will ever realize. My prayers go up for the entire family.*
