“ *My thoughts & prayers will be with your family during this difficult time. Robert & Gail would sometimes come to our house for Easter. & on occasion Robert would stop by either by himself or with his granddaughter & my mom would make him Irish stew. Once he stopped by unannounced after my mom passed & he asked if I would make him Irish stew. I laughed b/c I said I couldn't do that even if I knew how to. Why not? For one I don't even have the ingredients to make the stew. He was surprised since my mom would be prepared & always tried to make any guest feel welcomed. I am sure my mom will welcome him in heaven. Say Hi to my mom for me.*

“ Bob was a good friend for over 45 years. We met in October 68 and I thought he was “ one cool dude “ riding motor cycles and just being Bob. He taught me many things and helped me out of many problems. He was one of the most talented body and frame technician, with great mechanical skills of a genius and for a big man very agile riding motorcycles. In the dirt, through the woods , on the ice and of coarse on the road he made it look easy. The world of the people he had touched will never be the same. May peace be with you now in your eternal rest.

“ I have a lot of good memories of Bob. I think my fondest memory was me and Smooth riding to watch Bob race his side car in Bay City. He wanted me to ride in the side car (no way Bob. Then there the area field meets where he love to drag race in the sand. RIP Bob. Save me a spot at the starting line. You will be missed.
