“ Rosemary was a part of our "sister" group on a fibromyalgia forum which was a small group of women with positive attitudes about their illness. We were so close that we called each other sisters. Rosemary was loved by all. She always had loving, kind words of encouragement to other members. I looked forward to her posts because they were always so positive. She always referred to me as "Darling Rosie". She was our ray of sunshine and the members were devastated to learn of her passing and each of us have shed a lot of tears this week. She will always hold a special place in my heart and I look forward to seeing her in Heaven because there is no doubt in my mind that this is where this lovely lady is now.
