“ I am saddened to hear of Sonya's passing. I got to know her when she was working for my sister as her caregiver. I have a great deal of gratitude and respect for her. She was there at a time when my dad, who was living with my sister, was declining through his passing and she ended up taking care of both of them. She was so conscientious and responsible during that time and she went well above what most people would have. I don't know what I would have done without her. She may not have been book smart but she was street smart and a good businesswoman. She always knew who to call when something in the house needed to be repaired or replaced.

I would like to think that she and I had a special relationship and mutual respect for each other. She was there for me and was the only one who knew what I went through and gave me love, support, and understanding when I needed it most.

So thank you, Sonya. I will never forget you. My condolences to the family. She will be missed.
