“ *I met Tina about four years ago through my son who worked with Sergio. In September of 2018, my son became deathly ill with Cryptococcosis fungal meningitis.. My daughter & I took turns staying by his bedside, night & day, 24 hours a day! When Tina found out, she stepped in to make sure that we knew she was there to help if we needed her. She and Sergio were fantastic!👍, Not only did they come by to visit, Tina would often come by with a crock pot of food for us & the nursing staff, Joe was paralyzed & she would spend hours massaging his legs & trying to teach him to move them, she brought creams to try to help us heal his bed sores. We both had several children & grandkids so we had quite a bit in common & there was no doubt that she loved her children as much as I love mine. Her family was very important to her!*

Tina and I had a lot of things in common & the longer I knew her, the more special she became as a friend to my family and me. I knew she was very sick & I begged her to go to the ER, as I know many others did, but she wanted to handle it her way.

Our hearts were shattered when Sergio called us with the shocking news that she had left us.

Tina's love & kindness, & her help bringing my son through his horrible seven month stay in the hospital will forever live in our minds and our hearts. We will forever miss you, Tina. We love you
